## ABOUT THE PLACE

Munnar rises as three mountain streams merge - Mudrapuzha, Nallathanni and Kundala. 1,600 m above sea level, this hill station was once the summer resort of the erstwhile British Government in South India. One of the most sought after honeymoon destinations in Kerala, Munnar is replete with resorts and lodging facilities that fit a wide range of budgets. Sprawling tea plantations, picturesque towns, winding lanes and holiday facilities make this a popular resort town. Among the exotic flora found in the forests and grasslands here is the Neelakurinji. This flower which bathes the hills in blue once in every twelve years, will bloom next in 2030. Munnar also has the highest peak in South India, Anamudi, which towers over 2,695 meter.

A great place for trekking, the park offers a magnificent view of the tea plantations caressed by blankets of mists.
